Objective

Aspiring web developer with a strong foundation in HTML, CSS, JavaScript, and React.js, seeking a dynamic internship opportunity to apply and expand my front-end and back-end skills. Eager to contribute to real-world projects, collaborate with experienced teams, and grow as a full-stack developer.

Education

Bachelor of Engineering in Computer Science

JD College of Engineering, Nagpur — *Expected 2027*

- GPA: 9.58/10
- **Relevant Coursework:** Data Structure, Algorithms, Computer Architecture, Software Design, Operating System, Computer Network.

Technologies

- **Programming Languages**: C, C++,
- **Web Development**: HTML, CSS, JavaScript, EJS, React
- **Backend Frameworks**: Express.js, Node.js
- **Database Management**: SQL, MongoDB
- **Soft Skills**: Effective Communication, Team Collaboration, Problem-Solving

Experience

Web Developer Intern, Take It Ideas, Maharashtra   Jan 2024 – April 2024

- Created professional visuals (resumes/posters) using HTML, CSS & Canva, leading to a **30% boost in client engagement**
- Organized and led a CSS workshop & design session, increasing attendee engagement by **25%**
- Streamlined design tasks with efficient tool use (Canva, Excel), improving output speed by **20%**

AI: Transformative Learning Virtual Internship, Edunet Foundation   Dec 2024 – Jan 2025

- Developed projects using **Google Cloud AI tools**, resulting in **40% improved comprehension of ML deployment**
- Built Generative AI models, achieving **35% better accuracy** on test datasets
- Collaborated in virtual teams, completing 3+ AI-driven apps **10 days ahead of schedule**, enhancing cloud deployment skills

Projects

Personal Portfolio Website | LINK

Tech: React.js, Next.js, TailwindCSS, Framer Motion

- Built a modern developer portfolio with responsive design & animated sections, reducing bounce rate by **~30%**
- Applied reusable components & lazy loading to boost load performance
- Highlighted technical stack, achievements, and testimonials to enhance recruiter visibility .

Recipe Finder Website | [LINK](#)

Tech: HTML, CSS, JavaScript, MealDB API

- Built a real-time recipe search tool with API integration and intuitive UI
- Added search filtering and dynamic data rendering, improving user session time by **40%**
- Ensured cross-device responsiveness and optimized DOM interactions

---

Extra-Curricular Activities

- **Content Creator**, E-Cell JDCOEM – Created Instagram posts reaching **20K+ weekly views**, promoting entrepreneurship initiatives
- **Member**, Coding Club – Assisted with technical tasks, collaborated on group projects, and mentored peers on coding fundamentals

---

Leadership

Joint Secretary, Schologamma Forum, CSE Department
JDCOEM | 2024 – 2025

- Led 5+ tech events/workshops, resulting in a **40% increase in student participation**
- Coordinated logistics & managed communication between students and faculty, improving event execution efficiency
